Packapeer Academy
March 2022 to September 2022

• Gained hands-on experience in web development, working as a trainee in a dynamic and fast-paced environment.
• Assisted in the development and maintenance of websites, learning and applying various web technologies, programming languages, and frameworks.
• Collaborated with senior developers and designers to implement website features, functionality, and user interfaces.
• Participated in code reviews and debugging sessions to identify and resolve issues, ensuring the quality and performance of web applications.

SOFT SKILLS

- Observation
- Flexibility
- Time management
- Debugging
- Leadership

HOBBIES

- Reader
- Thinker
- Eagerness to learn
- Observing

MINIPROJECTS

CWSA
Construction Workers Supervisors Association
• Certificate printing for member.
• CRUD Operation

Motocarte
GPS Management System
. PDF Generation
• CRUD Operations
• Database Management

Insurance Management System
• CRUD Operations:
• WhatsApp Messaging Integration: Experienced in integrating WhatsApp messaging services into web applications for real-time notifications and alerts.

MAIN PROJECTS

Malabar Agro Bank
(Agricultural Organization and Bank)
•Designed and developed a member dashboard, providing bank members with a centralized platform to access their account information,
transactions, and other relevant details.
• Collaborated with stakeholders to gather requirements and understand the needs of bank members, ensuring the dashboard meets their
expectations.
• Implemented secure login and authentication mechanisms for members, safeguarding their sensitive information and ensuring privacy.
• Created personalized dashboards for members, displaying relevant account summaries, transaction history, investment portfolios, and
other customized information.

Homes 4
Construction Management System with Mobile App
.• Led the development of a comprehensive construction management system that empowered members to track and monitor the progress of
their house construction through a user-friendly mobile app.
• Collaborated closely with project stakeholders, including architects, contractors, and clients, to understand requirements and ensure
seamless integration of the system.
• Integrated the mobile app with the construction management system backend, establishing a robust data synchronization mechanism for
seamless data flow between the app and the system.
